EXAMINEE : Candidate A

**SECTION 1: PRE-EXAMINATION PHASE**

On 04<sup>th</sup> May 2026 at about 14:00 hrs (Dubai Time), I commenced to administer a polygraph examination to the above subject.

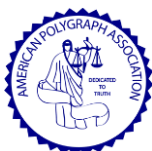

A screening polygraph test was administered as part of a pre-employment test for Company A.

The structured pre-examination interview was conducted in English during which 4 relevant and 3 comparison questions were developed. The questions were reduced into writing and reviewed with subject word for word.

**SECTION 2: EXAMINATION PHASE**

During the examination phase, the relevant and comparison questions were administered to subject with a set of 4 relevant questions. His verbal responses to the relevant questions were as indicated:

| S/N | Questions                                                                                                              | Examinee Response |
|-----|------------------------------------------------------------------------------------------------------------------------|-------------------|
| 1   | <b><i>Have you ever shared confidential company information with an unauthorized person?</i></b>                       | <b>No</b>         |
| 2   | <b><i>Have you stolen money, leads or any property from a company you worked for?</i></b>                              | <b>No</b>         |
| 3   | <b><i>Have you ever used company resources like leads or tools for your own personal gain or for someone else?</i></b> | <b>No</b>         |
| 4   | <b><i>Is your purpose in applying for this position to intentionally damage or undermine the company?</i></b>          | <b>No</b>         |

The examination was conducted with a Limestone Technologies Computerised Polygraph, recording the blood pressure, pulse rate, galvanic skin response and breathing pattern of the subject.

Four polygrams, including 1 acquaintance and 3 official tests were recorded, and the process ended at about 15:35 hrs (Dubai Time).
